

```
import { Component, Prop } from '@stencil/core';

@Component({
  tag: 'my-embedded-component',
  styleUrls: 'my-embedded-component.css'
})
export class MyEmbeddedComponent {
  @Prop() color: string = 'blue';

  render() {
    return (
      <div>My favourite color is {this.color}</div>
    );
  }
}
```
